

MINUTE OF JURY SELECTION

Call for Postdoctoral Researcher within the framework of the project “LCF/PR /HP19/52280002”, Project Proposal HR 18-000502, designated by “Metabolic Reprogramming in Sepsis - Metabolsepsis”

On the 6th of January 2023, the jury selection formed by Miguel Soares, Susana Ramos and Rui Martins met in view of analysing the applications to a postdoctoral researcher position, in the scope of the project “LCF/PR /HP19/52280002”, Project Proposal HR 18-000502, funded by Caixa Health Research within the framework of Iniciativa Ibérica de Investigação e Inovação Biomédica (i4B).

The jury analysed the documents included in the applications that are as annex of this minute. The call received applications from 2 (two) candidates that were classified in the following way:

Candidate	CV (60%)	Motivation Letter (20%)	TOTAL
Elisa Jentho	57	18	75
Tatiane Grazieli Hammerschmidt	45	15	60

The jury therefore decided by unanimity to recommend the hiring of the candidate Elisa Jentho based on her previous experience, with the additional value of knowledge in rodent infection models, combined with a strong motivation to pursue the aims of the project.

All the candidates were informed of the deliberations of the Jury on January 16th, 2023. If there are no complaints during the following 10 working days after the notification, it will be considered as effective the decisions of this minute.

Oeiras, 16th of January 2023

Chairman of the jury (Miguel Soares)

Jury member 1 (Susana Ramos)

Jury member 2 (Rui Martins)
