

## MINUTE OF JURY SELECTION

Call for Research Fellowship within the framework of the project PTDC/MED-FSL/4681/2020, entitled: "Metabolic reprogramming as a defence strategy to infection – Infectenergy"

On the 2<sup>nd</sup> of May 2023, the jury selection formed by Miguel Soares, Susana Ramos and Rui Martins met in view of analysing the applications to a postdoctoral researcher position, in the scope of the project PTDC/MED-FSL/4681/2020, entitled: "Metabolic reprogramming as a defence strategy to infection - Infectenergy" financed by *Fundação para a Ciência e a Tecnologia*, I.P./MCTES through national funds (PIDDAC),

The jury analysed the documents included in the applications that are as annex of this minute. The call received applications from 3 (three) candidates.

The candidate Daniela Droppa has the doctoral degree completed for more than three years prior to the application. As such this application is not eligible and was not considered for evaluation.

The remaining two applications were classified in the following way:

Candidate	CV (60%)	Motivation Letter (20%)	TOTAL
Ana Henriques	47	16	63
Sara Pagnotta	50	16	66

The jury therefore decided by unanimity to recommend the hiring of the candidate **Sara Pagnotta** based on her previous experience, with the additional value of rodent manipulation experience, combined with a strong motivation to pursue the aims of the project.

All the candidates were informed of the deliberations of the Jury on the 4<sup>th</sup> of May 2023. If there are no complaints during the following 10 working days after the notification, it will be considered as effective the decisions of this minute.

Oeiras, 2<sup>nd</sup> of May, 2023
