

## JURY SELECTION MINUTES

### Call for contract of a Technician position Project “PTDC/BIA-EVL/7546/2020”,

On 04 of 09 2023, at 10:00, the selection jury formed by Dr. Isabel Gordo, Dr. Nelson Frazão and Dr. Elsa Seixas met to analyse the applications to a contract, in the scope of the project “PTDC/BIA-EVL/7546/2020”, designated by “Evolution of commensal bacteria in the mammalian intestine”, funded by FCT.

The call was open from 21 of 07 2023 until 21 of 08 2023. The jury analysed the documents submitted in the applications. The call received 10 applications that were classified as detailed in table below (scores on a scale from 0-100).

After considering all applications, the jury decided by unanimity to recommend the hiring of candidate number 1, without the need for an interview, based on their experience in Microbiology, experimental evolution, phenotyping, handling of mice as animal model and the strong motivation to develop the project.

|                             | CV & previous experience (35 %) | Motivation letter (30 %) | Reference letters (0 %) | Total (65 %) | Final score (conversion to 100%) |
|-----------------------------|---------------------------------|--------------------------|-------------------------|--------------|----------------------------------|
| 1 CAROLINA ALTAF FIGUEIREDO | 35 %                            | 30 %                     |                         | 65%          | 100 %                            |
| 2 GONÇALO MESTRE            | 30 %                            | 30%                      |                         | 60%          | 92%                              |
| 3 RUI MENESES               | 30 %                            | 25%                      |                         | 55%          | 85%                              |
| 4 BEATRIZ RAMOS             | 35 %                            | 15%                      |                         | 50%          | 77%                              |
| 5 AFONSO RUIVO              | 25 %                            | 25%                      |                         | 50%          | 77%                              |
| 6 MARTA FALCÃO              | 25 %                            | 22%                      |                         | 47%          | 72%                              |
| 7 CAROLINA PEREIRA          | 25 %                            | 20%                      |                         | 45%          | 69%                              |
| 8 PEDRO MARREIROS           | 25 %                            | 15%                      |                         | 40%          | 62%                              |
| 9 ALI PAKDAMAN              | 25 %                            | 10%                      |                         | 35%          | 54%                              |
| 10 SARA GONÇALVES           | 20 %                            | 10%                      |                         | 30%          | 46%                              |

Comments – The candidate Carolina Altaf Figueiredo has a proven track record demonstrating the appropriate skills, including ability to work with mouse models, to make a substantial contribution to the development of the project.

All the candidates were informed of the deliberations of the Jury on 06 of 09 2023. If there are no complaints during the 10 working days following the communication of these results, the decision will be considered as effective.

There being no further matters to discuss, the meeting for which these minutes were drawn up was closed and signed by all the members of the Jury.
