

## MINUTE OF JURY SELECTION

### Call for research fellowship Project Low Cost Imaging of a Microbial Ecosystem

At 7th of 12 2023 meet, at 10:00 the jury selection formed by Pablo Sartori, Giulia Ghedinia and Tiago Paixao, responsible for analysing the applications to a fellowship, in the scope of the project Low Cost Imaging of a Microbial Ecosystem, funded by Institute Gulbenkian of Science.

The call was open from 09 Nov 2023 until 23 Nov 2023. The jury analysed the documents included in the applications found attached to these minutes.

The call received 2 applications that were classified with the following way:

Name	Full application	CV and previous experience (50%)	Motivation letter (30%)	Evaluation (máx. 80%)
1 Camila Vieira Lino daCosta	Yes	45	25	70
2 Carla Sofia Vieira Pestana	No	--	--	--

After considering all applications, the jury convened that application 2 was invalid, as the candidate did not comply with the requirement of holding a bachelor's degree in physics. As there was only one candidate that satisfied all the requirements, interviews were not deemed necessary. After discussing, the jury decided by unanimity to recommend the hiring of candidate number 1 based on the candidate already having skills in microfluidics as well as wet-lab experience, both combined with a strong theoretical background.

All the candidates were informed of the deliberations of the Jury on 07 of 12 2023. If there are no complaints during the 10 working days following the publication of this minute, the decisions herein communicated will be considered as effective.

There being no further matters to discuss, the meeting for which these minutes were drawn up was closed and signed by all the members of the Jury.

Oeiras, 07 of 12 2023

Chair of the Jury Pablo Sartori

Jury member 1 Giulia Ghedini

Jury member 2 Tiago Paixao
